# STONEY POINT PERFORMANCE ANGUS

## 9 STAR ANGUS ASSURANCE

### **AVERAGE EBV'S EXCEEDED ANGUS BREED**

Many of the sale bulls are indexing in top 1% of Angus breed. Using Stoney Point bulls will make sure your herd is right up there for all the critical performance traits, however, we do not compromise on phenotype. All bulls must be structurally sound.

### **BULLS ZOETIS i50K TESTED**

This Genomic enhancing test on bulls where indicated using individual DNA provides extra certainty to the figures of the bull you purchase. It also means they are parent verified and the DNA figures confirm we are ahead of breed average.

### **STONEY POINT 6 POINT HEALTH ASSURANCE**

Surpasses Zoetis 5 Star breeder program.

### **ACCURATE AND INDEPENDENT MEASURING**

All non visual traits are accurately and independently measured by recognised experts.

### **SEMEN TESTED**

To ensure live sperm are delivered, we have semen tested all bulls and only those with more than adequate motility are being offered.

### **STRUCTURALLY ASSESSED BY INDEPENDENT EXPERTS**

Dick Whale has structurally assessed all bulls in the sale.

### **REPLACEMENT WHERE STRUCTURALLY UNSOUND, INFERTILE OR INCAPABLE OF SERVICE – 1 YEAR BREEDING SEASON GUARANTEE**

Any such bull that will be replaced or refunded providing no causal agents post leaving the Stoney Point Performance Angus property.

### **DEATH COVER**

All bulls are insured for death including transit until 4th October 2019 and the insurance can be continued by the purchaser. Your investment is protected.

### **ANGUS AUSTRALIA**

Our Sale Lot catalogue is prepared by Angus Australia. You can be ensured of the accuracy and truth of the figures.

# WELCOME

This year we will be offering a multi-age choice of bulls i.e. we will have 2 year old, 18 month old and yearling bulls for sale. This is the first time we will be offering the latter. Yearling bulls are favoured in some quarters due to an increased working life and the fact they are fitter and more agile and are less likely to breakdown than older bulls. They also represent one further generation of genetic improvement. So it will be up to buyers to determine their best option(s).

We believe after 21 years of breeding elite Angus Genetics we have found the key to the door. Our philosophy of breeding bulls that **DO** and bulls that **STAY** is proving to be right on the money. Our Stud Manager Peter Colliver is building a great reputation within the breed along with his top support team – Dick Whale (IBMS) on structure and breeding, Ian Moreland (Studcare) doing our AI and semen testing, Mike Boerema (ETS) for ET and IVF with Simone Holt (NSA) providing nutritional advice.

In addition we will be offering registered stud cows with registered calves at foot with only commercial reserves on their heads. These cows have become available as surplus to requirements due to the very high PTIC we achieved this year amongst our keeper heifers. All calves will be from AI to the top Angus sires available in Australia. A great opportunity to get proven breeders into a herd with great calves at foot.

And there is good news to support the above. It has been reported by a number of clients from up North that the Stoney Point bulls have stood up far better than any others in the tough dry seasons recently experienced. In addition, closer to home, feedlot weight gains from Stoney Point genetics have been phenomenal which given the many stresses of a feedlot pen versus a nice big open paddock, is proof of the performance and durability of our genetics, **DOING** and **STAYING** in all situations.

As always we will have the barbie cranked up and some great steaks on offer. Looking forward to seeing you on the day.

*Perry Gunner – Stud Principal*

# SALE INFORMATION

## **Selling System.**

Sale will be conducted under auction conditions as posted by the Agents on the day. Selling price will not include GST.

## **Accommodation**

HAMILTON SALE:

Comfort Inn Botanical Hamilton (03) 5572 1855

Best Western Hamilton (03) 5572 4055

Comfort Inn Grange Burn (03) 5572 5755

For any other accommodation or travel assistance please contact Peter Colliver 0428 723 640.

## **AM – NH – CA – DD**

All bulls and cows selling are either free of these defects by parentage, or have been tested free. No carrier bulls will be offered for sale.

**Johnes Status** – the Stoney Point herd is JBAS6.

## **Delivery**

Stoney Point Performance Angus offers free delivery to buyers within a 500km radius of the sale location. Delivery will be co-ordinated immediately after the sale, Any testing requirements for interstate travel, will be at the purchaser's expense. Buyers wishing express delivery of their purchases are encouraged to use their own carriers.

All bulls and cows are purchasers risk from the fall of the hammer.

Freight assistance is given to those outside the 500km radius, speak to Peter 0428 723 640 for more details.

## **Registration Status**

All bulls and cows selling are either Herd Book Registered (HBR) or Angus Performance Registered (APR) and can be transferred at no cost.

## **Inspections**

Bulls and cows can be inspected from 2 hours before sale. We encourage buyers to inspect the cattle prior to sale. This gives us the opportunity to assist in selection of genetics to best fit your herd.

## **Rebates**

A rebate of 3% is allowed to agents nominating and accompanying buyers to the sale. Agents not meeting the above terms will receive 1% if settling for a client.

## **Phone Bidding**

Phone bidding can be arranged prior to the sale by speaking to the selling agents.

## **Buyers Instructions**

No buyers instruction form is included in the catalogue. Sale Agents prefer their own "Buyers Instructions" cards. All purchasers must complete one of these cards prior to leaving the sale. No verbal instructions will be accepted.

## **Catering**

Refreshments will be available throughout the sale, and we would also like to invite all cattle producers for lunch and get together.

## **After Sales Service**

We offer ongoing support to our clients. All at Stoney Point Performance Angus are available to discuss any aspect of your herd and can be contacted on the numbers listed in this catalogue.

## **Insurance**

Bulls are insured for death including transit until 4th October 2019.

## OUR BREEDING PHILOSOPHY

*Many Studs wax lyrical, use big words from the text book to describe their Breeding Philosophy. It can be long winded and hard to grasp.*

*At Stoney Point we keep it simple:*

We breed bulls that **DO**  
We breed bulls that **STAY**

**BULLS THAT DO** deliver the genetics to your herd that:

- Ensures your cows get in calf, then calve down unassisted, raise a calf that grows and grows producing lots of high quality meat and both the bull and cows remain healthy and fertile.
- Produce a no nonsense docile herd whose offspring are sought by feedlotter and processors.

**BULLS THAT STAY** or are durable ensures your purchased bull:

- Possesses structural soundness with great feet and legs and superb udders in his female offspring.
- Retains his softness, style and shape and breeds to type.
- Is a great all round performer – ticks all the boxes.

It is all about breeding Real Angus – like they should be, loaded with ***Superior Fertility and Capability*** ensuring our clients herds are efficient, producing the highest quality meat.

# WHY USE YEARLING BULLS?

## THEY ARE BECOMING POPULAR

Yearling bulls allow breeders to extend the working life of their bull battery as well as introducing superior genetic material earlier resulting in faster genetic gain. They tend also to be more athletic and less prone to breakdowns and adapt more readily to a new environment.

## YEARLING BULLS ARE IDEAL TO USE OVER HEIFERS

## WHY ARE YEARLING BULLS DIFFERENT?

Yearling bulls are still growing and are leaner i.e. carry less fat reserves. They therefore require good nutrition and to be used over lower numbers of females say 25–30. They should not be mated with older bulls.

## ARE YEARLING BULLS SEXUALLY MATURE?

Bulls begin to reach sexual maturity from about 8 months of age and by 12 months all should have attained this status provided testicles are 32 cm or more. They perform better in multiple joinings with other yearling bulls as they tend to be keen and an audience seems to spur them on to greater levels of exuberance.

AT STONEY POINT PERFORMANCE ANGUS WE USE A NATURAL TECHNOLOGY THAT PRODUCES HIGH QUALITY, HUMAN EDIBLE PROTEIN, DERIVED FROM SOLAR ENERGY LOCKED WITHIN HUMAN INEDIBLE PLANTS. THE TECHNOLOGY PRODUCES A NATURAL ORGANIC FERTILISER AND IS MOBILE AND DOES NOT REQUIRE FOSSIL FUELS.

THE TECHNOLOGY SELF REPLICATES

THE TECHNOLOGY IS BETTER KNOWN AS BREEDING ANGUS CATTLE

# MATING ASSURANCE

**A working fertile bull in a well managed cow herd is our mutual aim. We strive to do our part in presenting bulls for sale by implementing stringent pre-sale procedures.**

These involve:

1. Physical examination
2. Semen testing to ensure more than adequate motility of semen
3. Feeding a fertility ration in the weeks leading up to the sale.

In addition we provide the Stoney Point Guarantee as follows:

## **The Stoney Point Guarantee**

**All Stoney Point Performance Angus Bulls are backed by a 1 breeding season guarantee. In the event of a bull proving to be infertile, or incapable of natural service within 1 breeding seasons or 12 months (whichever comes first) of the purchase date, the vendor will credit the purchase price less the salvage value of the bull, provided the problem is not caused by injury or disease incurred since taking delivery.**

**Any claims must be made within 48 hours of occurrence and be accompanied by a relevant veterinary certificate.**

**The vendor reserves the right to obtain an independent veterinary assessment to confirm any claim.**

**It should be noted this guarantee is **NOT** a substitute for the proper care of your bull.**

The sale day is not the end of the bull's life and caring for your bull post sale is still an important process:

1. Upon arrival ensure your bull is properly socialised
2. Pre-joining – reassess the bull for any injuries or issues likely to impact its performance with your cows – keep up the vaccinations
3. At joining, limit numbers to be served by a new bull and rotate if possible. Best results are obtained with multiple matings rather than single matings
4. Always monitor your bull and cows. Look for injuries or higher than expected numbers of cows still cycling after 3 weeks of joining
5. Post-joining resocialise in a suitable paddock with adequate good quality feed but don't overdo the condition of your bull.

**Insurance** – we provide death including transit insurance to get your bull home for a few weeks after the sale. If you want to extend this cover or in fact include loss of use, your stock agent can help or contact us.

**After Sales Service** – at all times feel free to contact us with any concerns or further information for your bull.

# COWS AND CALVES (at foot)

Each year we keep a selection of elite heifers and each year the selection is getting better and therefore bigger numbers are being retained.

We were fortunate this year to record a very high PTIC which as a result has created a surplus of PTIC cows.

We have selected a number of these cows ALL OF THEM HAVING CALVED DOWN unassisted to the VERY BEST AI SIREs available in AUSTRALIA.

We are offering them in this sale with commercial reserve price which we will announce prior to the sale. These cows are value opportunities.

The calves have all been registered or submitted for registration and along with their dams can be transferred at no cost.

As you will see from the following list of mating sires, the calves are top class, full of genetic merit and will DO and STAY as they grow out.

**NB:**

- THE COWS PRESENTED SHOULD BE AT A STAGE WHERE THEY ARE READY TO MATE.
- ALL CALVES HAVE BEEN REGISTERED AND SIREs INDICATED. AT THIS STAGE THERE ARE NO EBV'S AVAILABLE, HOWEVER, WE HOPE TO HAVE A SCHEDULE OF EBV'S ON SALE DAY.
- ALL CALVES WILL HAVE RECEIVED THEIR MARKING HEALTH TREATMENTS.

# REFERENCE SIRES

**29AN1810 TE MANIA EMPEROR E343 (AI)** (AMF-NHF-CAF-MAF-OSF-DDF-RDF)

## THE EMPEROR AND THE PRINCE THE EMPEROR

**Temania Emperor** is the current pre-eminent Seedstock Angus Sire for the Australian herd. At the time, the record price selling son of the former pre-eminent sire. For many years No.1 for registrations and still No.2. Emperor covers all bases for great EBV's, Structure, Phenotype and Docility. Rates in the top 10% for 13 traits – quite unbelievable. His calving ease and short gestation makes him ideal for heifers. Daughters are excelling as breeders.

## THE PRINCE

**Murdeduke Kicking**, son of the great Emperor, maybe set to excel his father. Discovered by Stoney Point who have the only sons available for sale this season Kicking is now on the radar of the top studs. Kicking is the result of 9 generations of donor cows (unique) and has demonstrated a prolific conception rate in the Cohort 6 Benchmarking Program – 13% above average. But look at the spread of birth to 600 day – an absolute curve-bending profile and had the first calves on the ground in his cohort. Sleep Easy with Kicking . His flush brother is Hussar 211 who topped the feed efficiency in his cohort 5. Ideal mating for thick moderate cows that need extending.

# REFERENCE SIRES

## THE NEXT GENERATION

VAR Generation 2100

Son of Consensus 7229, most popular USA Angus Sire, **Generation 2100** shows all the signs of becoming the next great thing in the Angus breed. A stunning set of spread figures backed by an extremely attractive phenotype. From a champion cow that has produced numerous top selling sons that are being used in leading herds. 2100 genetics are a must for any Australian herd.

## HIS SONS ARE SO GOOD - YOU'LL PICK THEIR IDENTITY

**Identity** is loaded with power and performance, moderate size with outstanding muscle and bone. Very correct, smooth with a gentle disposition. Stand-out Bull inspected on 2017 Tour. Best feet and legs seen on tour. Mother is the Krebs top donor cow with a great udder. Stoney Point were fortunate to obtain most of the Identity semen to arrive in Australia and it is no longer available. A rare chance for Australian Angus breeders.

Koupals B&B Identity

# ABOUT OUR REFERENCE SIRES

## MUSGRAVE APACHE

APACHE is making a name as a “go-to” cowmaker. He offers a great pedigree and is a great option for heifers.

He has a bulletproof maternal backing and displays superior fertility. From a beautiful uddered Boulder daughter.

Described at Musgrave as “a unique blend of style, structure, durability and muscle”.

## STONEY POINT LOVIS L178

Now upgraded to an AI sire, LOVIS exhibits good docility in a moderate frame but with explosive growth, great muscle expression on sound feet and legs.

His dam H233, by Bartel E7, is our top donor cow – look at his indexes.

## THOMAS UP RIVER

Moderate framed with extreme power, thickness and dimension. True power sire with calving ease and excellent growth. Sires big ribbed, easy fleshing females.

His sons have topped Millah Murrah Sales with prices up to \$85,000.

## STONEY POINT LIMOUSINCE L213

Thick, Thick, Thick, LIMOUSINCE has great depth of body, standing on good feet. Outstanding data spread. His dam is by the very productive Africa 217.

Wonderful temperament. Will add capacity to your herd.

## STONEY POINT LOBSHOT L267

Great Upward son, LOBSHOT is a true heifer bull with a big scrotal (which is often absent from heifer bulls) and top carcasse and RBY figures.

**Topping off the Reference Sires are a number of elite sires for Coolana, Witherswood and Murdeduke where we were fortunate to purchase some elite dams PTIC to these bulls.**

LANDFALL UPWARD H219<sup>SV</sup>

DAM: SYAM346 STONEY POINT RIGHT DIRECTION M346<sup>#</sup>  
LAWSON'S GAR RIGHT DIRECTION D1067<sup>#</sup>

Notes: If you are after a super sleep easy heifer bull take note on Pennant. He was the first calf born last year 20 days before the due date at only 28 kg. Yet he retains breed average 400 DWT and good fertility and carcase traits. He ranks in the top 5% for all calving ease traits and above average for all index values.

**Notes:** Calving ease, carcass quality, docility, structural soundness and maternal fertility is quickly making Kicking a must use sire in the Angus breed and this son ticks all the boxes across the board. He ranks above 50% for all but 5 traits or indexes and he excels in all calving ease traits.

# HEALTH ASSURANCE PROGRAM

**This Program exceeds the Standard set out by  
the Zoetis 5 Star Breeder Program.**

## 7 in 1

Ultravac 7 in 1 prevents spread of Leptospirosis (which can affect humans) and protects against Clostridial diseases (blackleg, Tetanus, pulpy kidney, black disease and Malignant oedema).

## Pestivirus

Pestivirus is a highly contagious virus that reduces conception and pregnancy rates and results in poor growth rates of PI cattle. We treat all our Bulls with Pestiguard.

## Ear Notch

Our Bulls are earnotched and tested by Swan Veterinary Services to ensure they are free of Pestivirus.

## Vibrosis

Vibrosis is the hidden STD and a major cause of infertility and abortion. It is spread by infected bulls and is controlled by Vibrovax.

## MH/IBR

Whilst Bovine Respiratory Disease is mostly a feedlot issue it can occur in your herd and causes morbidity and mortality. Bovishield ensures your purchased bull has immunity.

## Parasites

Dectomax presale ensures our Bulls are free of parasites at sale date.

**Remember – boosters are required for 7:1, Pestiguard and Vibrovax.  
All Are Due 14.8.20**

# Important Notice for Purchasers

## ~ SALE CATALOGUE DISCLAIMER ~

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

## ~ DNA PATERNITY VERIFICATION ~

It is a requirement of Angus Australia that all bulls used to sire calves for registration in the Angus Australia Herd Book Register, Red Angus Register or Angus Performance Register must have been DNA paternity verified if they are born in or after the 'Y' year (2003). Buyers intending to use bulls listed in this catalogue to produce calves to be registered in these registers should obtain DNA paternity verification on those bulls before they are used for breeding.

## ~ PRIVACY INFORMATION ~

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must advise Angus Australia.

### **BUYER'S OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO THE ANGUS AUSTRALIA**

*If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its databases and disclosing that information to its members on its website.*

*I, the buyer of animals with the following registration numbers*

..... from member

..... (name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the following animal(s) that I have purchased, maintaining its databases and disclosing that information to its members on its website.

AGRI-VET

# FERTILITY PLUS®

**Success is the Answer – Increase Your Fertility**

**THE PROOF IS IN THE RESULTS IN DAIRY & BEEF HERDS THROUGHOUT AUSTRALIA**

**Agri-Gene Pty Ltd**

p: 03 5722 2666 f: 03 5722 2777 e: info@agrigene.com.au www.agrigene.com.au

A specially designed, cost effective, specialized, unique, waterproof mineral and vitamin including a higher content of essential elements, Selenium and Magnesium to supplement as a loose mix or through mineral dispensers to enhance the performance of all classes of cattle.

### COMPARE THE ANALYSIS - FERTILITY PLUS

- > Increases Fertility in both Dairy & Beef Breeds
- > Improves Weight Gain & Maturity in Dairy & Beef Young Stock
- > Assists Grass Tetany and Metabolic Conditions
- > Self Limiting - Balancing Mineral Requirements
- > Unique Waterproofing Process
- > Improves your profits - More Cows in Calf
- > Cost Effective 12-19 Cents Per Cow Per Day
- > Increases Milk Yields - Lowers Somatic Cell Counts
- > Can be fed through Feed Systems at 30 Grams Per Cow Per Milking

### Fertility Plus is readily available through:

All A.I. Resellers, Murray Goulburn Trading stores, Landmark Stores and all leading Rural Stores throughout Australia.

*Breeding Real Angus*

**Different is not always better.  
Better is always different.  
We aim to be better.**
